WE ARE WiN

Sponsorship Key Expected Results

Developed a comprehensive sponsorship and partnership charter outlining clear roles, expectations, and deliverables for all stakeholders. Additionally, provided regular, data-driven updates on project progress, key impact metrics, lessons learned, and testimonials to ensure robust and transparent partner relations.

Objectives

1.
Build a dynamic network of industry partners, institutions, and stakeholders to foster shared knowledge and international cooperation within the nuclear sector.

2.
Establish sustainable, win-win relationships by seamlessly aligning sponsor objectives with WiN Global's core mission, ensuring clear and measurable returns for all parties.

3.
Leverage targeted funding and strategic alliances to scale up core initiatives, maximising their reach and effectiveness for women in nuclear science worldwide.

Sponsorship Lead

What inspires you to be part of WiN Global?

I participate to connect and collaborate with women around the world working in the nuclear and radiation fields, and to share my experiences in a way that can inspire, support, and be of value to others.

Professional Profile

Expertise area: Radiation Protection, Nuclear Safety Act, Radiation Regulations

Eunok is a former Professor of Radiological Science with over 30 years of experience in radiation protection, radiation safety education, professional training, and radiation-related projects. Author of 50+ journal papers; holds a Radiation Safety Supervisor license. Earned Master's and PhD degrees in Radiation Safety and Public Law. Currently a Senior Researcher at the Nuclear Policy Center, Seoul National University, working on regulation and policy for spent nuclear fuel and tritium.

Get to know Eunok

Chapter

WiN Korea.

Organization

Seoul National University.

A woman you admire and why

I admire women who demonstrate strong responsibility and integrity in whatever field they pursue. Closer to home, my mother was deeply devoted to her children and family, and she has been a sincere role model for my life.

How would you describe yourself in three words

Generous, a little silly, fun-loving friend.

Favourite food

Everything except chicken. I can't eat it because that chicken is my feather baby. I believe that all food in the world is a meaningful element of life to be grateful for. I like traditional Korean dishes like Doenjang-jjigae (soybean paste stew) and Kimchi-jjigae (kimchi stew). I love any food that my mother makes.

Favourite song, band or singer

Hymns, and my absolute favorite is "Amazing Grace." I think every singer is wonderful in their own way.
