WiN Global President Report 2020-2021

Dear friends,

We are coming to the end of my first year as President of WiN Global and I would like to express once again my gratitude for having been elected, I am very honoured and proud of it.

Today, I am sharing with you the advancement of my Action Plan presented at the last General Assembly, on 5th October 2020 and the initiatives carried out in the framework of this Plan.

We have many challenges ahead of us. More than ever, our organization has a strategic role to play in the energy transition for the achievement of a sustainable future of the energy sector.

My willingness is also to open WiN Global to other women's organizations of the energy sector, not necessarily nuclear related, and even to bring our voice to the anti-nuclear public.

With love,

Dominique Mouillot
8th WiN Global President.

ACTION PLAN MONITORING

ACTION PLAN: 7 TOPICS

1. To be an active and recognized actor in the climate change debate. “Nuclear for Climate”.
2. To promote WiN Global as “a network of experts”.
3. To improve communication: to permanently communicate through the social networks getting the public perception.
4. To create a “WiN Global Young Generation” as a Group of Interest.
5. To act on gender balance issues.
6. To enlarge sponsoring and partnerships.
7. To add an operational governance to our general governance.

**Officially presented at the WiN Global
General Assembly on 5th October 2020**

Topic 1: To be an active and recognized actor in the climate change debate. “Nuclear for Climate”

PROACTIVITY

LEGITIMACY

VISIBILITY

- *To become a lobby of experts with presence and power in the climate change debates*
 - **Proactivity.** *To have an active role and contribution to the climate change debate.*
 - **Legitimacy.** *To be identified as a key actor in this debate (“network of experts”).*
 - **Visibility.** *To be recognized as a key actor in different public debates or forums.*

□ ACTIONS :

- **Nuclear for Climate.** Social media campaign to support the 2021 position paper for the COP26 “Net Zero Needs Nuclear” . WiN Global proactive role. 44 chapter signatures.
- **WiN Global participation at COP26.** Actions undertaken and carried out by the Young Generation Group of WiN Global with the IYNC.

- **Youth Got Talent pitch CO2MPETITION.** 04/10/2021.
<https://www.youtube.com/watch?v=c74ZdOfDmXc>
- **Conferences:**
 - Webinar Social license in Nuclear Industry. Program in Nuclear Energy and Innovation. Universidad Nacional de Tres de Febrero. Argentina. 14/10/2020.
 - Webinar Fukushima 10 years anniversary with WiN Japan. 19/03/2021.

Topic 2. WiN Global as “a network of experts”

LEGITIMACY

- To be identified as a **“network of experts”**, a panel of skilled professionals with wide experience and knowledge in different areas related to nuclear technology.
- To create the **“WiN Global Groups of Expertise”**, group of professionals with high level of expertise in key areas.

It is our willingness, through these groups of experts, to contribute with our know-how to the sustainable development of the nuclear industry and to be a recognized actor.

- For this reason, we have just launched **“WiN Global Groups of Expertise”**, groups of professionals with high level of expertise in strategic areas **with key partners**:
 - Women In Nuclear Security Initiative (WINSI) – IAEA .**
 - Women In Nuclear Decommissioning Initiative (WINDI) – EDF**
 - Women In Nuclear Innovation (WINI) – WNA**
- Women in Nuclear Radiopharmacy (2020). Leader Aruna Korde . NAPC
- Other Groups under development: Nuclear Medicine (Prof Nouzha Ben Raïs) and SMRs (Lisa McBride)

Topic 2. WiN Global as “a network of experts”

WINSI - Women in Nuclear Security Initiative

WINSI

Women in Nuclear Security Initiative

The Women in Nuclear Security Initiative was launched in March 2021 by the IAEA's Division of Nuclear Security (NSNS-Ms Elena Buglova, Director NSNS) to contribute to IAEA Director General Rafael Mariano Grossi's vision to establishing the IAEA as a leading global voice for gender equality in the nuclear field. The Initiative is set up as an interest group within the Global chapter of the Women in Nuclear network (WiN Global).

Leader: Ms Oum Keltoum Hakam.

Mission

The initiative's mission is to support *the achievement of* gender equality in nuclear security both within the IAEA's Division of Nuclear Security and the global community of practice.

2021/05/26 : Webinar on The Role of the IAEA in Strengthening Capacity of Women in Nuclear Security Worldwide

Topic 2. WiN Global as “a network of experts”

WINDI-Women in Nuclear Decommissioning Initiative.

The Women in Nuclear Decommissioning Initiative is launched with the aim of promoting and strengthening the involvement of women in the decommissioning field, to attract current and future talents to this sector.

"Decommissioning is an exciting technological challenge that requires the development of innovative and safe solutions. This sector needs people with varied skills, motivated, creative, whatever their background, whatever their gender. I hope that this initiative will inspire more women to participate in these vital and fast-growing activities."

Estelle Desroches, Managing Director of Cyclife (EDF subsidiary in charge of international dismantling activities) as WINDI's godmother.

Mission

The mission of the initiative is to promote diversity in the nuclear decommissioning industry where women can play a key role in developing innovative and sustainable solutions.

Topic 2. WiN Global as “a network of experts”

WINI-WOMEN IN NUCLEAR INNOVATION

The Women in Nuclear Innovation was launched in September 2021 under the framework of the partnership between [WiN Global](#) and [World Nuclear Association](#), being [DG Sama Bilbao y Leon](#) the godmother of WINI Initiative.

WINI main objective is to create a group of multidisciplinary experts within the members of [WiN Global](#), promoting and strengthening the involvement of women in innovation and enhancing the attractiveness of nuclear as an innovative and cutting-edge technology sector, especially for the next generation. Also, through different activities, WINI wants to boost the role of nuclear innovation and technology for the future of the energy sector.

Leader: Adoración Arnaldos Gonzalvez.

Mission

The initiative's mission is to promote innovation in nuclear as a key driver for a sustainable energy future, for which women play an important role on the development of innovative and inclusive solutions.

LEGITIMACY

Action : WNE Awards

On the occasion of the World Nuclear Exhibition (WNE) which takes place, in Paris, every 2 years, WNE Awards have been created to highlight the most innovative and interesting technologies and/or companies during this event. 4 domains are concerned :

- Technical Innovation
- Innovation in Nuclear Safety.
- Innovation in Operational Excellence
- Innovation in Competencies Management and Knowledge .

WiN Global Participation:

Innovation in Nuclear Safety :

President: Veronica Garea. Board member of INVAP and Vice-president of WiN Argentina.

Member: Tebogo Motlhabane, National Radioactive Waste Disposal Institute (NRWDI), President of Women in Nuclear South Africa

Member: Dr Keiko Chitose, Japan Nuclear Safety Institute, President of Women in Nuclear Japan

Innovation in Competencies Management and Knowledge :

Member: Melina Belinco, National Atomic Energy Commission (CNEA) of the Republic of Argentina, Vice-President of Women in Nuclear (WiN) Global

Member: Lisa McBRIDE, GE Hitachi Nuclear Energy, President of Women in Nuclear Canada

Member: Margaret Mkhosi, South Africa National Nuclear Regulator, WiN-Global Executive responsible for Africa

BOUTAYEB SALWA
Nuclear Engineer

WHY YOU CHOSE THIS DEGREE?
I chose this degree to expand my horizons and to challenge myself. I was inspired by the work of the scientists and engineers who have paved the way for me. I want to contribute to the development of our country and to the well-being of our people.

HOW CAN WE INSPIRE YOUNG WOMEN TO BECOME ENGINEERS?
I think the most important thing you can do to push women and girls towards science is to show them that it is possible, that it is a path they can take.

WHAT IS SOMETHING YOU ARE DOING NOW THAT YOU DIDN'T EXPECT TO DO WHEN YOU WERE STUDYING?
I am currently working on a project that involves the design and development of a new type of nuclear reactor. This is a challenging task that requires a lot of technical knowledge and skills. I am proud to be part of a team that is working on such an important project.

GWNET aims to advance the global energy transition by empowering women in energy through interdisciplinary networking, advocacy, training, coaching and mentoring. GWNET seeks to address the current gender imbalances in the energy sector and to promote gender-sensitive action around the energy transition in all parts of the world.

- To promote nuclear energy among the main actors / stakeholders / lobbies of the energy transition (who do not have to be precisely in favor of nuclear energy)
- Raise awareness of the key role of nuclear energy in the energy transition through women's networks and women's lobbies.
