

International Day of Women and Girls in Science

Let's inspire the next generation of women in nuclear!

#NuclearNeedsWomen

“Your curiosity is your superpower - Never stop exploring with joy, passion and conviction!”

“Always dream, our lives are made of dreams. Let's fight!”

“Keep going, don't stop, you will fulfill your dreams because it is what you want most.”

#NuclearNeedsWomen

“ Dream with passion, and let your perseverance turn obstacles into opportunities. The magic lies in your ability to push boundaries, and create a future filled with endless possibilities.

“ Follow your dreams and keep on trying.

#NuclearNeedsWomen

“ Every tear, every fear and every doubt was worth it. Thank you for your courage and for keeping alive that spark that drove you to continue.

“ Follow your dreams, they know the way! World need nuclear and nuclear needs women.

#NuclearNeedsWomen

“ Science nerds are cool! Don't let anyone ever tell you otherwise.

“ Do your best and allow yourself to fail. Dream your own dream, not anyone else.

“ Think out of the box, live your dreams and grab every opportunity.

#NuclearNeedsWomen

“ You can shine is a male dominated field. Science is for everyone regardless of gender.

“ Every day you persist is a victory, and every effort is a step closer to your goal.

“ Keep your eagerness to know everything and your commitment to just causes —you're on the right path.

#NuclearNeedsWomen

“ Believe in yourself and follow your dreams, no matter how many obstacles you find along the way. Human rights, ethics, peace and sustainability must always be at the heart of your actions.

“ Stay courageous, be fearless, and keep pushing boundaries. You are the future of science!

#NuclearNeedsWomen

“ Be a proud nerd and know that you DON'T need permission to be smart and capable. Never underestimate the critical role you play in tackling some of the world's greatest challenges.

“ Don't be afraid of science, have confidence in yourself, you can do it.

#NuclearNeedsWomen

“ You have the right to chose science!

“ Don't be afraid, being different isn't bad, believe in yourself.

“ You are smart, don't doubt your abilities, trust your instincts.

#NuclearNeedsWomen

“ Don't limit yourself, keep learning.

“ Believe in your ideas; one day, they will light up the world.

“ Don't be afraid to be yourself, don't be afraid to be curious.

#NuclearNeedsWomen

“ The way will not come from simply willing. Things will not always turn out your way, but always remember that you were fearfully and wonderfully made. If Albert Einstein, Marie Curie, made discoveries that serve humankind, so you can.

“ Believe in yourself, let's leave nuclear tracks.

#NuclearNeedsWomen

“ One day they told you that you would never achieve your dreams, but trust the process—soon you’ll be a PhD and prove that every effort was worth it.

“ Powerful women for powerful energy research.

#NuclearNeedsWomen

“ Believe in yourself, baby girl. You have all the skills and talent to reach the mountain peak!

“ Be passionate, have fun, enjoy the journey, and believe in yourself. Learn from the best, share what you know with confidence, and stay open to learning what you don't. And above all, always act with integrity and stay true to your values, even in the face of challenges.

#NuclearNeedsWomen

“Your drive and hunger for knowledge are your biggest assets. Even though it might not be “cool” to ask questions at school, it will make you excel at university and work later. And don't worry, little girl, you'll be just fine!

“Trust your intuition and your strength. They will never fail you.

#NuclearNeedsWomen

“ Believe, Innovate and discover new worlds, and remember to be kind along the way.

“ Follow your passion, pursue a purpose, and believe in yourself.

“ Believe in you!

#NuclearNeedsWomen

“ Embrace the path that lies ahead with courage and determination. You will conquer challenges that seem insurmountable and achieve success that will make you proud.

“ You are stronger than you think, and the world needs your voice.

#NuclearNeedsWomen

“ It may be hard this journey, but its worth it. Continue to question why, continue to seek understanding of the secrets the world has to offer. Be an explorer thats why we do science.

“ Keep pushing forward—the future is brimming with endless possibilities.

#NuclearNeedsWomen
