

Annual General Assembly

13 JULY 2025

Agenda

1. Welcome remarks
2. Keynote speech “Voices of Leadership”
3. Welcome Ceremony for new WiN Chapters "United in Voice, Bold in Chapter"
4. President’s Report
5. Financial Report
6. Memorandum of Understanding between WiN Global and the World Institute for Nuclear Security (WINS).
7. WiN Korea: 33rd WiN Global Annual Conference
8. Q&A
9. Closing remarks

1. Welcome remarks

2. Keynote speech “Voices of Leadership”

(Separate presentation)

3. Welcome Ceremony for new WiN Chapters "United in Voice, Bold in Chapter"

4 . President's Report

Collective Leadership

Sorority

Sustainability

Diversity and Inclusion

**Sharing the strength that defines us:
our expertise, our skills, our voices.**

Groups of Expertise

- Conducted regular meetings with all leaders' to discuss topics of mutual interest and future activities/annual work plans.
- Coordinated activities of WiN Global's nine groups of Expertise.
- Set up a system together with the Comms Team Leaders to organize webinars.

Eva Gyane
Technical Leader

Groups of Expertise

- Group activities included:
 - Regular meetings with members to identify areas of future focus
 - Launching of one new group (WiNEXI)
 - Creation of a dedicated website (WiNLI)
 - 2-3 webinars per month related to the groups' respective subject areas
 - Special events (International Women's Day / World Theranostics Day)
 - Various networking, mentoring and career advice opportunities for its members
 - Invitations to speak as panellists at international conferences (e.g. IAEA International Conference on Stakeholder Engagement for Nuclear Power Programmes and AFRICA Nuclear Business Platform 2025)

Eva Gyane
Technical Leader

Mentoring

- Successful Mentoring Session during WiN Global Annual Conference in October 2024 in Mexico City with 70+ participants and 12 facilitators.
- WiN Global Mentor City platform ([MentorCity - Online mentoring programs](#)) updated in collaboration with Mentor City to include search categories to better meet needs of matching WiN Global mentors + mentees, including:
 - Nuclear specific specializations (nuclear safety, radiological protection, nuclear education, nuclear science, nuclear technology, radioactive waste management, safeguarding), and;
 - Membership in a WiN Group of Expertise (WiNDI, WiNEPRI, WiNEXI, WiNLI, WiNMI, WiNSI, WiNRI, WiN for Peace, WiN YG).

**Morgan
Parker**

Mentoring

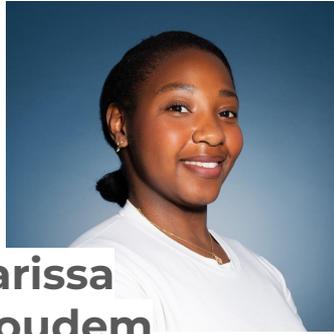

- 252 WiN Global Members have now registered on the MentorCity platform, with 40 currently active Mentor-Mentee relationships.
- Test run of MentorCity to assist WiN Groups of Expertise with private mentoring groups – including creation of a group specific for nuclear law / WiNLI. *Possibility to expand private mentoring group pages for other WiN Groups of Expertise.*
- Plans to host a second webinar in Q3 of 2025 on MentorCity features following the 2025 WiN Global Annual Conference to expand current number of Mentors and Mentees using the platform, and ensure optimised use.
- Plans to host a full NEA Mentoring Event during the WiN Global Annual Conference in Republic of Korea, 2026.

**Morgan
Packer**

Young Generation: Metrics

- 100+ new members (all genders)
- 20+ events and conferences participation
- 2 members assembly
- 4000+ LinkedIn followers

SCHOLARSHIP ASPIRANTS

Meet Our Regional Team!

Our WIN YG regional team foster greater global participation across six regions.

Each regional representative coordinate and guide teams towards bringing together young people in the nuclear sector.

Young Generation: Empower program main 2025 achievements

- 17 participants, 13 countries | 5 continents
- A youth lead educative program on leadership combining Policy work, training and mentorship.
- With the participations of top level experts from, White and Case, IAEA, Diplomat, INL etc.

We are open to proposals for the 2nd edition!

em power

Mapping of the Global Nuclear Energy Sector.

The Empower Program is a global initiative aimed to enhance leadership skills, provide career guidance, and improve the industry.

Participants visible in the grid include: Gayatri Karnik, Aleshia Duncan, and others.

Young Generation: Other actions

- Parentally survey
- Inspire Program (Digital bootcamp 100 participants)
- Career building program (3 sessions)
- WiNfinity (6 sessions)

Nuclear Energy : Loved, Hated ... or Misunderstood ?

Join us for an eye-opening conversation with two of the most insightful voices in the nuclear space.

SATURDAY, MAY 17TH
AT 8:30PM CEST

Madison Hilly
Partner at Radiant Energy Group

Mark Nelson
Managing Director
at Radiant Energy Group

The bottom of the poster features the 'WiN Women in Nuclear YG' logo on the left and the 'RADIANT ENERGY GROUP' logo on the right. The background of the poster is a light blue and white pattern with faint images of nuclear reactors.

Annual Conference Team Leader

- Provided leadership and support to the successful organisation of the 2024 and 2025 WiN Global Annual Conferences.
 - Worked closely with WiN Global leadership and key stakeholders to ensure seamless coordination across all areas of the events;
 - Supported the IAEA-sponsored participation of 23 women in Mexico City and 16 in London, helping broaden access and representation;
 - Contributed to the technical agenda development of the London 2025 conference, particularly for Expert Groups and and Young Generation sessions;
- Served as a voting member of the Empowering Girls selection committee, reinforcing WiN's commitment to future generations.
- Currently involved in preparatory work for WiN Global Annual Conference in Republic of Korea, 2026.

**Amparo
Soler**

33rd WiN Global Annual Conference Update

- Meeting with Margaryta Rayets, WiN Ukraine President.
- Agreement reached on the need to postpone the Annual Conference to be hosted by WiN Ukraine in 2026, especially due to safety reasons.
- In accordance with the approved WiN Global procedure, proper planning of the programme is recommended to begin two years prior to the conference.
- WiN Ukraine will have priority to act as host chapter in 2028, in case the conditions are in place. WiN Ukraine will need to confirm their host by 2026.

- 2025 – United Kingdom
- 2026 – South Korea (APPROVED BY THE BOARD)
- 2027 – Tajikistan
- 2028 – [Open for Nomination](#)

Gender / Digital Communication

- Maintenance and updating of the WiN Global website
- Social media communication
- Creation of event scheduling forms
- Support and coordination with the Annual Conference Team Leader
- Support and coordination with the Groups of Expertise through the WiN Global Technical Leader
- Support and coordination with the Awards Committee
- Email communication for special actions/events

International Women's Day: Science Advances with Women

“Extremely knowledgeable and humble women and passionate members of WiN Global have given me the tools to recognize gender barriers and biases in the nuclear sector. This has been essential for me to gain confidence and self-awareness in my professional journey. Today, I work tirelessly to create spaces and training opportunities where more women can develop these vital tools.

MELINA BELINCO
WiN Global President,
International Cooperation
Specialist

“To every woman navigating a career in science and engineering, I want to say: your path doesn't have to fit a conventional timeline. Whether you pursue a PhD at 26 or 46, whether you take a straight road or a winding one, your achievements are no less significant. Growth comes from persistence and from acknowledging that we are more capable than we often allow ourselves to believe.

AMPARO SOLER
WiN Spain President,
PhD in Nuclear
Engineering

“Throughout my career in nuclear science, I have faced barriers, but I was never alone. The support of my female colleagues of WiN Brazil encourage me to continue on this journey and to be resilient. Now, I work to inspire the next generation, ensuring that black girls and students from public schools see a future for themselves in nuclear science.

GABRYELE MOREIRA
WiN Brazil President,
Researcher in Medical Physics,
Winner of the IAEA Marie
Curie Fellowship

“Thanks to the trust and support of my peers and supervisors, I have coordinated leadership programs for young women in the nuclear energy field. This would not have been possible without their confidence in me. I strive to lead by example, working collaboratively, and fostering interdisciplinarity to drive meaningful change.

DELFINA DI LORENZO

Awards season starts now!

The image displays four testimonial cards for the WiN Awards, each featuring a winner's portrait and their quote. The cards are: 1. Andrea Bachrata (Nuclear Future Award 2021) on a teal background. 2. Princess Atroughbenti (Excellence Award 2021) on an orange background. 3. Gabrielle Voigt (Honorary Award 2014) on a grey background. 4. A fourth card on a blue background with a laurel wreath and the text 'LAST CALL!'. Below the banner is a white box containing the logos for Nuvia, IFNEC, and ENEC.

WiN AWARDS

This award holds real value—it was voted by those who saw my work leading projects and teams within WiN. Receiving it in Japan, I could thank them in person. It strengthened my confidence that our efforts are seen, impactful, and have a promising future.

ANDREA BACHRATA
Nuclear Future Award 2021

WiN AWARDS

Winning the WiN Global Excellence Award reinforced my commitment to shaping Africa's nuclear future. It has opened doors to meaningful collaborations, strengthened my advocacy and affirmed the power of knowledge in driving sustainable energy solutions for our continent.

PRINCESS ATROUGHBENTI
Excellence Award 2021

WiN AWARDS

The Honorary Award was given to me for my engagement in WiN Global and for reinstalling the WiN IAEA chapter. The Award made me better known by all our WiNners to finally become the WiN Global President. I am very honoured and grateful to have received this prestigious recognition of my many years efforts for gender equality.

GABRIELE VOIGT
Honorary Award 2014

LAST CALL!

Last chance to join a global celebration of excellence, leadership, and impact in the nuclear field – the WiN Global Awards await your nomination!

FINAL DAY TO APPLY: 13 APRIL

Launch Ceremonies of New WiN Chapters

Active Presence in Every Region

- Launch of a series of regional signature events, each co-organized in close collaboration with its national chapters.
- High-impact platforms for strategic dialogue, regional cooperation, and tangible progress: tailored to the specific context and priorities of its region.
- Inaugural European edition took place in Madrid.

REGIONAL
FLAGSHIP EVENT

→ Madrid
27TH & 28TH May

ICE-BREAKER AT:
A'OLLO
MEETINGS AT:
COM

Active Presence in Every Region

- Opening & Welcome: Virtual participation of Mr William D. Magwood, IV, Director-General of the OECD Nuclear Energy Agency.
- Keynote – “Europe’s Nuclear Moment” - Melina Belinco highlighted the unique opportunity to place nuclear energy at the heart of Europe’s energy transition.
- Panels: Innovation & Emerging Technologies; Public Trust & Strategic Communication; The Role of Nuclear in Europe’s Energy Transition”; “Women Leading Europe’s Nuclear Renaissance”.
- Interactive Workshop – “Mapping the Future of WiN Europe”: Shared priorities and next steps were defined, including the host of the next event in the region.

WiN Chapters in Europe as a driver of innovation, talent, and visibility.

Active Presence in Every Region

Key takeaways

- **Collaboration is key:** Strong alliances between professionals, institutions, and associations are essential to advancing the nuclear sector.
- **Nuclear at the heart of the transition:** Europe has a unique opportunity to position nuclear as a central pillar of its clean energy strategy.
- **Innovation & communication:** Emerging technologies and building public trust through strategic communication are vital for the future of nuclear.
- **Integration & regulation:** Strengthening regulatory frameworks can boost energy security in Europe.
- **Women in leadership:** Women leaders shared their successes, challenges, and strategies to advance gender equality in the nuclear industry.
- **Shaping Europe's nuclear future:** Common priorities were defined to turn WiN Chapters in Europe into a driver of innovation, talent development, and visibility.

Vision 2030: How Gender Mainstreaming Fosters Creativity and Performance in STEM?

JOIN US

🕒 12:00 PM EST

📅 FEBRUARY 11, 2025

Powered by 

WiN Global + Women in Nuclear Renewables (WiRE)

Outcomes

- Inclusive dialogue across the energy sector promoted: Need for fostering a constructive conversation that goes beyond divisive, polarizing, extreme positions.
- Partnership with WiRE enhanced: The webinar marked a new milestone achieved between both organizations and provided a framework to explore new joint initiatives.
- WiN Global YG's capabilities strengthened: Significant opportunity for the YG to put their leadership skills into action and gain self-confidence.

WiN Global + World Nuclear Association (WNA)

Consistent Involvement in the
WNA Cooperation Forum for
Nuclear Technology Associations

WiN Global + Institute of Nuclear Materials Management (INMM)

- Launch of our **second-time competition** to participate in the 66th INMM Annual Meeting, to be held in Washington, D.C., from 24-28 August 2025.
- Main requirements for participation:
 - Only WiN Global members are eligible to take part.
 - The age limit for this competition is 35 years of age.
- Abstract requirements established by INMM.
- The maximum amount of the WiN Global grant will be Euro 2,000, to cover your trip and accommodation expenses. You will be required to submit documentary evidence of your expenses to the WiN Global Treasurer.

WiN Global + International Atomic Energy Agency (IAEA)

- 28 women from Africa and Latin America and the Caribbean regions were sponsored by IAEA to attend WiN Global Conference (14 each) in 2024, in Mexico. In 2025, the IAEA sponsored 16 women.
- WiN Global participated in the meetings with the group of Friend of Women in Nuclear (GoF of WiN), in March and June 2025.

WiN Global + IAEA

WiN Global co organized side events with IAEA:

- Side event was organized within the International Conference on Research Reactors: Women at Research Reactors: Challenges and Opportunities. The event was also participated by representatives from the GoF of WiN (USA and Australia).
- “Women shaping Africa’s nuclear landscape”, in collaboration with The African Commission on Nuclear Energy (AFCONE) and other IAEA partners.
- Empowering Future Generations: Exploring the Peaceful Uses of Nuclear Sciences and Technology," organized by WiN Tunisia, the Arab Atomic Energy Agency, and the Joint Institute for Nuclear Research. This event aimed to inspire middle and high school students interested in science and technology.
- Female Leadership 2025: Breaking glass ceilings in technical and scientific areas, in collaboration with WiN Morocco and WiN Global.
- Panel discussion within the framework of International Conference on Advances in Radiation Oncology (ICARO-4): Women in radiation oncology and leadership roles: challenges and solution

WiN Global + IAEA: Regional approach *Latin America & the Caribbean*

- Regional School on Leadership in the Nuclear Field for Young Generations: VIDEO
https://youtu.be/aNNO42RwtwE?si=s_wq76VEIWZRnH2jx
- WiN Global Champions Inclusion in IAEA Lise Meitner Programme: Hosted for the First Time in a country of the region, Argentina.
